

Another First for Creation

Establishing a wine estate from scratch is no easy task – virgin land can be remote, as was the case when JC and Carolyn Martin discovered their little piece of paradise perched atop the Hemel-en-Aarde Ridge in Walker Bay in 2002.

Since the tasting room and state of the art cellar were built in 2007, the popularity of the estate has grown rapidly and now hosts over 30 000 visitors a year – a fact which marketing manager and co-owner Carolyn credits to the innovative and exciting wine tourism activities available to guests visiting the farm and the numerous pioneering wine pairing options on offer. Since the introduction of the ground-breaking wine pairing canapé concept, Creation has consistently led the way by regularly introducing new and exciting experiences including a theatrical secret pairing, a paradoxical chocolate pairing, a non-alcoholic pairing and even a kiddies surprise pairing option.

The latest addition to our portfolio of wine and food pairing experiences is truly unique, something for those who have tried it all before, those who want to challenge their senses and treat their palate to the extraordinary: introducing the 10AM Brunch Pairing – 8 breakfast-themed tapas perfectly paired to premium wines from the Creation Range.
