## Creation in Burgundy and the Loire

Imagine a hectic three days crisscrossing Burgundy and the Loire, visiting a famous tonnellerie here, doing an intensive barrel tasting there. And that while temperatures are often soaring to 35 in the shade! But to Jean-Claude (JC) and

Carolyn Martin of Creation it's all in a day's work ...

Yes, Carolyn and JC have continued their travels in Europe during the past week, touring to France to keep up to date with the latest vintages being produced in Burgundy and the Loire while also visiting barrel manufacturers who may become key suppliers. Click [here](#) to read Carolyn's report.

## **Creation Academy**

Private clients residing near the major centres of Cape Town, Johannesburg and Durban who have purchased the Tasting Kit may also request the Creation Wine Academy experience presented by one of our regional ambassadors. The Academy will help you assess wine like a professional while learning some of cellarmaster Jean-Claude Martin's best kept secrets, including the unique elements of terroir that help to shape his wines. ## **Wine Word of the Week: Barrique**

'Barrique' is a name given to wine barrels, specifically 225-litre barrels used in the Bordeaux region of France. The size of barrels traditionally used in the various wine producing areas of France differs slightly, with a Burgundy barrel holding 228 litres and barrels used in the Loire usually 232 litres. In Bordeaux a larger 900-litre barrel is called a 'tonneau' while very large barrels that can hold upwards of 1000 litres are called 'foudres'.
